## **What's new in Half-Life 2: Episode Two Soundtrack:**

**of Drucelli Coming to the forest of Drucelli was perfect timing, as the forest has been abandoned since 1990 and is falling into disrepair. As my trip home grew closer, my imagination began to wonder, will the forest still be there in the autumn? Dropping my bags at the Luggage Service in Djerba, I decided to take the chance and see what was so special about this forest. Drucelli Forest in Djerba Entering the forest, I began to notice that this was no mere derelict town forest. Crossing a long bridge, I looked over the pine and oak trees, admiring the contrasts of lights and shadows against the dark sky, realizing just how rural this place was, as I stood in the middle of nowhere. A further exploring of the forest brought to life the history of this hidden treasure, having been purposely abandoned in 1989, when the huge explosion occurred at the Bab al-Bahr Power Station. Villagers who lived in the forest began to abandon their homes as toxic sludge and debris drifted over the forest. In hopes of moving on, residents caught on vehicles and motorcycles filled the roadways. Finally, the authorities closed off the area and sealed up the entrance. This disaster was followed by several obstacles that stopped people from entering. There wasn't much access remaining and instead, the woods became an ecological preserve. Eventually, the woods were sold to an English company, which had plans to construct a cruise ship port, adding to the toxic contamination problem. Little**

**more than a century ago, the forest wasn't as isolated. With the railroad running through the heart of the forest, getting to Dubalous in Lissa seemed easy. But the railroad is now mostly filled with gravel, and uncooperative and sparse of cars to traverse. With the trees turning red and yellow, the lush green forest was now a crisp and arid scene of orange and gray trees. The Italian consortium group, Ferrovie della Grecia, is now selling off pieces of the city's woodland area. Drucelli didn't promise to be an easy life in the interior of what was formerly called the Hidden Sanctuary. The exit was blocked, and access would be available only by boat. At that time, there were only two entrances left, both at the sea. Despite all the obstacles, tourists and people alike could find their way into the protected area through Djerba's port.**
