But when I update to SDK 8.0, the Android SDK Manager also show API 23 for Android 7.0(API 23). It shows up even I have installed Android SDK 8.1(API 24). How does it happens? Is it a bug of my emulator or the Android 7.0 in this case? Like us on Facebook: Avery's shortest game. It is in the vein of "Creatures of the Deep" - a 2D game where you have to find missing rings to escape a watery level. This was my first game for the Fridge. It is a work in progress. I'm not sure how I'll fit it into the main Fridge, but on any given day I might try a random crate from the box. (I'm also considering a crate-based game with a different character in it, but that's not live yet either!) Playable on Mac OS X 10.7+ or Windows XP+, Visually resembles the original version of "Creatures of the Deep" using Box2D. Game and Art by avery in the sense of the web site. Welcome to Wormyland! Sphoxie is a physics based rolling ball adventure game where you must help the little spiky dude get back home after being sucked into a portal that has taken him into a strange unfamiliar boxy world full of many perils and strange boxy creatures. You must take control of the little dude, his spikes are not just for decoration, they help him climb up certain walls and steep slopes so you can collect the four red cubes in each of 24 levels to open the exits to be able to access all 3 different worlds. Time is life and in Sphoxie this is very literal, the enemies will steal your time and falling of the level will really make you lose time, don't fret because time flows both ways, you can get more time by collecting the yellow and red cubes or knocking the bad guys into the ether. The little dude is not totally defenseless because he has a special blast power and by slamming into anything hard enough unleashes a powerful shock-wave that will knock anything away. This power will be very useful in the boss battles where you must knock all the bosses of the platform to unlock the next world. If you are a speed demon there is a race mode where you must beat each level (without the bad guys or yellow cubes) as fast as possible for the top time. There are various unlockables for achieving certain things in the game like different tails, sun glasses and more! Many dangers and obstacles await, can you handle it? Features - 24 fun and diverse levels - 3 Challenging boss fights - 3 Unique worlds - Simple yet deep gameplay - Climb on walls - Beautiful visuals powered by the Unreal Engine 4 - Made by just one person - Achievements and Leaderboards - Unlockable Customization options for your character - Race mode - Music by Anitek - Made in the Unreal Engine - And lots more!
