## What's new:

**on Life Friday, 14 February 2014 We are few and getting smaller. It is pride that is controlling our decision-making. We want to stay alive. We like to control our fate. If we become a Pawn the Game is over for us. We are best placed when we are out of the equation. So we play the Game and let the Queen decide. We will always need money to survive. We drink to forget or we live to do the opposite. Some things are in black and white while others are in grey. We have all learned how to deal with these things. But they are mysteries that have remained unsolved. We are not ignorant of the world, but we don't want to be part of it. We don't want to know who is crazy because it doesn't change what our next move will be. We don't want to see and hopefully don't have to smell. But we need to do when we do. We will not ever be concerned about the needs, wants, problems or needs of others. I'm still calling a bluff. I am still giving you time. And I have yet to lay down the cards yet. I am undying today...and whatever has happened within the short space of time that we have covered in our journey is not the final bottle, there are many more. Thursday, 4 May 2013 It doesn't really matter who you are, where you come from or what you do. It's not the other person that has to guess. It's you and your actions that hold the key to the story. Because we all make mistakes. How we react to them and deal with them is what defines our character. Tuesday, 20 April 2013 We will see the world and person, but with only two choices: Either we live in it or we die in it. We must choose life and say good bye to the battle won. We are at the epicentre of the Human Genome and the field for defeating the Science Vs. Medicine narrative will be won or lost depending on our actions. We, at CAUCUS, have already made a decision. We will not stop fighting till we are at the top of the Game. We will work**
