without using `^`. thanks for the article. i have backuptrans used to transfer messages from my iphone to my android, but i've just found out i bought the old version 3.0.1. You can read the above content from blogs, forums, other websites online. By reading the content from various sites, you can get any information about the software. You can visit our website to get more information about the software.

Q: Running a JAR on an EC2 instance I have an executable jar file that I'm trying to run on an EC2 instance. I can get it to run, but the log files are not being written to any specific file. I've tried adding an environment variable, as well as/or a command line parameter, but neither works. I'm using a 64-bit jre. `java -Xmx1024m -jar -Dlog4j.configuration=file:/usr/lib/log4j2/log4j2.xml -log4j.configuration=file`
