Elden Ring has been “developing the original fantasy action role-playing game, Dungeons of Elden, for more than 5 years.” They wanted to create a modern fantasy RPG game that you can enjoy by sitting on a sofa. The story of this game is a story of a boy who lost his memory, who was gathered by a deity, and who lived in a world in which his freedom was

limited. The boy was awakened by a chance meeting with a goddess, and he is going to live a journey as he travels with that goddess, who is also a half demon.

Elden Ring also wants to offer a new fantasy RPG game that is easy to understand and fun to play, and to tell you more about the game, they have invited “Kotaku” to see the development state of the game. ABOUT ELDEN RING

Elden Ring is a developer that was established in 2010. In July 2015, they released the Dungeons of Elden for PC, which is a fantasy action RPG game with role-playing elements and character development, but they released it for mobile in February 2016, and the Worlds’ Kitchen for iOS and Android in May 2016. The Worlds’ Kitchen is a job role-playing game in which you “deepen the story of Elden Ring’s fantasy action role-playing game.” ABOUT ELDEN RING

DEVELOPMENT Elden Ring is developed

by CYAS Productions. ■ Features 1. A Vast World Explore a vast world that is broken into 3 regions. • Fields The player can freely roam the Fields, which are made up of open fields, and they can freely interact with the people who live there. There are many towns scattered around the Fields, and they serve as points of origin for players' adventures. • Dungeons The player can discover the dungeon, which is made up of incredibly large underground caves, in towns scattered around the Fields. • Loot Dungeons When the player enters a loot dungeon, they will randomly receive rewards from that dungeon. The items that are found include armor, weapons, rare treasures, and equipment. • Skill Dungeons When the player enters a skill dungeon, they will randomly receive rewards from that dungeon. The items that are found include skill improvements, and they can choose a skill dungeon that

best suits their play style. 2. The Story of Elden

Elden Ring Features Key:

A New Fantasy Action RPG -New Action RPG genre that seamlessly combines two types of action games. -A vast world full of variety and excitement. -Explore the world with rich, deep immersion. -Find hidden secrets that change with each map. -Explore an epic drama in which the various thoughts of the characters intersect and take a journey through fantasy and myth.

An Action RPG where the Action is the element of the story

In this fantasy action role-playing game, the player's choice directly affects how the story develops, changing the grand story in the process. As you advance in the game, you can experience an escalation of the mood.

The story even continues to unfold and change based on how you play. When you get captured by monsters, the main character will become cranky and start to distrust you. Through your choices, you will be able to upgrade the character's aura rating and be able to continue playing.

Various events can occur as the story unfolds. Enemies and allies will appear in various places. In addition, the protagonist may meet famous Elden Lords, and the feeling of accomplishment of winning against a difficult opponent will be added to the sense of unity. When you defeat the enemy, there is even a chance of encountering other Elden Lords.

It's not uncommon for the main character to end up with a weapon as large as an Ax that can only be held by a strong man.

Q: Remapping items in a selected block in QGIS I have a series of specific blocks which are not all created equal: block A1 contains all of them, while A2 and so on contains only some of A1's blocks. Is there a way to automatically map all of A1's items in A2, and so on? It does not make much sense to manually map items A1 and A2 as a user, nor in any circumstances can I simply export the original blocks into another software since the blocks are unique. I would of course like to avoid creating a dummy layer with just A1 as layer, exporting it, and then manually deleting the dummy layer. Many thanks A: If you have a browse feature, select the area you want to work on, then Open a dialog box with your layer selected and choose Do nothing.

"In theory, I like fantasy RPGs where you do more than move, but after playing this game I'm giving myself a pass." Gamebreaker -

8/10 "If you're looking for a solid RPG with an incredible world to explore, this is your game." Gamebreaker - 8.5/10 "Before you start - Go through this tutorial by clicking on the links under the main image or just get playing, its worth it! Some questions you'll have are; Can we change our class and will the rest of the content just load whilst the tutorial runs? Nope and no." Completeturtle - 9/10 "I would highly recommend this game to any JRPG fan." YOKOTHLOKYSIDE - 10/10 "This is one of the best games I've played on the PS4 in a long time. From the first moment to the last, this game never let's you down." VideoGamer.com - 9/10 "I like that I can play the game as a single-player experience, but the online play ensures it always feels like there's a community of friends and others to hang out with." Games Master - 10/10 "I genuinely can't recommend this game enough." 8/10 - NerdSushi "When you think of JRPG's, this is one of the first names that comes to mind." 8/10 -

PlayStation LifeStyle "This game has the potential to blow many JRPG's out of the water and onto the Vita." 7.5/10 - MakeGamingTunes "It's definitely worth checking out if you're a fan of the genre." 6/10 - SwitchRPG "This game isn't that bad for such a big title and so much time has been put into it. If you're into Game of Thrones then you'll love the world this game takes place in." 7/10 - VRHeads "This is the true pinnacle of the genre as it has everything you love about gaming. The production values are stunning and it's definitely one of the best JRPG's we've played on PS4." bff6bb2d33

WORLD OF VISIONS Online is a tactical action RPG created using the Unity 3D Game Engine, available free of charge to create and share massively multi-player 3D experiences. World of Visions incorporates

the Unity 3D engine, allowing for easy development and user creation, allowing for an unlimited amount of replayability, and allowing for global interaction and communication with players who can share their own story even if the main narrative story is finished. As a fresh new action RPG, the gameplay focuses on the actions and combos of the character while maintaining its modern and touch-based art style. No hidden info, just dodge, jump, attack and be cool! The specific world designed by KASURO, who has previously created the world for the critically acclaimed Tower of Druaga, is a narrative world, which the player gets to connect into in his/her own manner. The story follows a cross-elemental relationship between the protagonist and the heroine, two beings that will work together for their lives in this fantasy world. World of Visions is set in the world of Southeastern Europe, where the game takes place in a land filled with forests, mountains, and

towns, and also features recurring enemies from various fantasy novels. Unique and dangerous enemies including various monsters, assassins, and armies are also scattered around. Players will have to search for wild beasts and goblins, fight them, and defeat their commanders in order to get the coins scattered around the world, which can then be used to buy useful items or items that boost one's level. Exquisite characters that are easy to understand and to communicate with can be befriended, which makes the game especially fun and enjoyable. Players also get to connect with other players via an asynchronous online mode. Through the online mode, players can share stories, play various minigames, or simply enjoy relaxing play time in a chat room. Synchronization is made easy for players by the automatic synchronization of the locations and the events of other players, and users can also communicate with each other through the chat or the

messaging system. The following information is a small example of how players can enjoy their time with the online mode: Inviting players to a room and playing the game together, in spite of being strangers
Players giving out items to the other, in exchange for coins, without any special considerations
Players asking one another for information about the other character to help them out
Meeting old friends or making new ones
Uniting people at the same location

What's new in Elden Ring:

Hyrule Warriors Legends is going to be brought to arcades, except there's no word of a release for the PS3, PS4, or Xbox 360, though all three systems are on the list. For more, head on over to Hyrule Warriors Legends' official site.

Follow Hyrule Warriors on Twitter.

But now it turns out that Technoboss's Hyrule Warriors Legends is already so old that it has its own dedicated repost... and there's even a video that shows it in action. Given how it was still in development when this Hyrule Warriors Legends review came out, it's no surprise to see the new game in action by this point too. The Last Mac Convert "The Last Mac Convert" is the debut single by the English music trio Gorillaz, and first single from their eponymous debut album Gorillaz. The single, a black-and-white music video directed by Jamie Hewlett, was eventually banned by MTV Europe and radio stations across the United Kingdom for its explicit content and was banned from being played on MTV and VH1

|| Warframe Beta Key Giveaway Do you want to get into the Warframe beta early? You can by winning one of these keys. Do you want to get your hands on some early access? You might be able

to if you win a key. Sonic Retro's giveaway competition sees gamers win a key to try out the recently released sci-fi space-shooter, Warframe, before launch on Tuesday, 22nd September. The free-to-play first-person shooter/MMORPG hybrid was released earlier this month and is going to be offering some players beta access on PC. But you won't be the only one. The competition is pretty easy to enter and anyone can participate. The rules require you to sign up to the PlayStation Network and be logged into your account. You'll then be randomly picked to receive a key to the beta of the game. You'll then need to purchase the game once it's launched on PC and Mac, and have a PlayStation 4 in your house. It's also worth noting that the competition isn't actually for just any game. You need to own a US physical retail copy of an Xbox 360, PlayStation

3 or PlayStation 4 game. That could have implications for the winners in terms of the rules of the competition, so make sure you're buying the correct game. Anyone can enter the competition and whoever wins can then "claim" their prize, so the most fun and most imaginative entry will win. It's up to the players to decide which one wins. We'll be keeping a close eye on the giveaway and we'll confirm the winners when the competition closes. So keep your eyes peeled and fingers crossed if you want to win. Only valid for active forum users. Active means at least 30 postings within the last 30 days (no spam postings). This will automatically be checked at www.starbike.com shopping basket so make sure that you are logged in at the WW board! If there does not appear a WW discount position when you check out you do not have enough postings! I am looking for

a featherlight 12H which will be used for city, sportbike and multi use commuting. I have done some research, but I'm looking for something even lighter than my Climb AS. We'll see how that goes. My favorite so far from AeroGrip is the ASR-01 in any color. ** please make sure you are replying to this thread
