- Science Fiction Universe - Dream it, make it! My first dlc and the way of learning about coding, it's just the beginning for me and I'm sure you can see a future in Sci-Fi with it. I would like to thank you all for your support. You know, I am going to share some serious stuff about it in the future, but this is a test time now. We learn from mistakes, sometimes it's good to make mistakes, it's a best way to learn Thank you so much for your support!~ What's included: 2 Long Graphical Scenarios. Even two pilotable heroes. Over 4 hours of very vivid, colourful scenes. Even a fully functional, working timer. Almost 80 maps. A lot of detail. You'll be able to play this as it is, with no scripts or scripting. Twelve space base maps. You'll be able to install the script and change the script if you want to. You'll get the script in the program as a bonus. You'll get the sprites in the next update, but if you don't want them you can

install them. What's not included: Your support! I will update it as soon as I can, but I don't promise to update it every day, but please be aware of this possibility, and keep an eye on this page to stay updated. I will try to take into consideration what's not included in this version, so you don't have to be sad about it. The credits: For your support, for all your love and your warm words, I will always try to give back, thank you for everything. My game developers: For working on this project with me, and be my friends, thank you so much. You are my best friends, I can't thank you enough. This project and my career wouldn't be where they are today without you. -
